

The SkyCaddie Touch has a belt clip hook on the back as you already know. The Quick Clip is designed to work perfectly with the SkyCaddie Touch. That belt clip hook on the back of your Touch simply slides into the keyhole slot of the Quick Clip. Of course, you'll have to remove the belt clip in order to place your SkyCaddie Touch in the keyhole slot of the Quick Clip.

If you have any doubts at all about the strength, flexibility and holding power of the 3M VHB adhesive, please click on the link below. If you have any trouble opening it, simply right-click directly on the link then click on "Open Hyperlink". Or you can also copy the link and paste it into your web browser address line:
